Action items from last 2 calls

Action Items from 11/14 call:

- E & E to contact “true” HDD companies and draft proposed sampling intervals by Monday 11/21. E & E also needs to review CHK’s proposed split analyses provided in the comment package.
- EPA to provide piezometer installation and slug testing procedures; and determine if SOPS should be in the QAPP
- CHK to check with management on microseismic; develop flowback sampling procedures; and set-up a call on MIT for 11/16

Action Items from 11/16 call:

- CHK to provide written procedures for MIT
- CHK to provide a link to list of API reference documents

I would like to have a call next Mon at the regular time - please let me know where we are at on these items. I hope to have the QMP that CHK wants to see before then.
